

TRAINING OPPORTUNITIES FOR RETIREMENT FACILITIES PROFESSIONALS

Refrigeration Systems and Accessories *Online Course*

This course is part of the online Retirement Facilities Technician certificate program. The number one complaint among residents remains retaining a comfortable temperature level. Maintaining the proper comfort level is essential for resident satisfaction and sustaining high occupancy rates.

Course benefits include:

Gain skills in general maintenance and troubleshooting of refrigeration systems and accessories.

Understand refrigeration systems that can be integrated into your building and the computer technology to operate them.

Learn how to recognize, set up, and maintain a reliable and effective refrigeration system.

12 Chapters Focus On:

- Theory of refrigeration
- Compressors and Metering Devices
- Evaporators and Condensers
- Refrigeration System Accessories
- Refrigerants and Refrigeration Oils
- Various Refrigeration Systems
- Chillers
- Cooling Towers and Auxiliary Equipment
- Operating and Safety Controls and Electrical Components
- Leak Testing, Evacuation, and Charging
- Troubleshooting and General Maintenance Requirements
