

Responsibilities of the Board of Directors

➤ **Attend all meetings of the Board of Directors.**

The importance of attending meetings cannot be overemphasized; you must be familiar with the plans and activities of the organization. You have a fiduciary obligation to the organization that can only be met by attending meetings and voting on the actions of the Center for Positive Aging.

➤ **Attend all functions held by the Center for Positive Aging.**

The best way to show your support of the goals and objectives of the association is your attendance at all of its functions.

➤ **Serve as an advocate in the community.**

It is important to the future of aging services that you publicly represent the organization in the community. A supportive word at the right time has great weight.

➤ **Represent the Center for Positive Aging in business meetings.**

The future of the organization depends upon broad-based support with the local business community.

➤ **Make the Center for Positive Aging a personally significant charitable contribution for you.**

Only if the Board of Directors completely supports the association can we go to others asking for their support. The first question a foundation will ask is “Do you have full financial support of your Board?”

➤ **Recruit others to assist in the work of the association, financially and otherwise.**

We will only prosper if we are constantly expanding our outreach to the larger community. We should have Board members and advocates from all areas of Georgia.

➤ **Serve on Committees of the Center for Positive Aging as requested.**

The Committees and task groups of the Board are important to the work of the association. They have important work to do and make it possible for the Board to act upon well thought-out recommendations.
